Education

King Mongkut's University of Technology Thonburi (KMUTT) , Automation Engineering - Thesis: Natural Gas Methane Leak Detection Using an Infrared Camera - INC Department Outstanding Student Scholarship - Winter Semester 2023 & 2024	Bangkok, Thailand 2022 – 2025
Yangon Technological University (Center of Excellence) , Mechatronics Engineering - Participated in Myanmar RoboLeague 2019 as Mentor - Led First Global Challenge 2019 team representing Myanmar	Yangon, Myanmar 2015 – 2022

Experience

Maintenance Technology Center (MTC) , Full Time Machine Learning Researcher Developing advanced machine learning solutions for non-destructive testing applications. Collaborating with Prof. Cherdpong Jomdecha on cutting-edge detection technology research. - Contributing to innovative maintenance technology solutions for industrial applications - Research focus on non-destructive detection technology	Bangkok, Thailand Sept 2025 – present 5 months
Maintenance Technology Center (MTC) , Machine Learning Intern Developed supervised, unsupervised and semi-supervised machine learning algorithms for acoustic detection based non-destructive detection systems. - Won First Runner-Up Award in 'Smart Infrastructure for Smart City' competition by Metropolitan Waterworks Authority - Listed in KMUTT Hall of Fame for outstanding achievement in Smart Infrastructure development - Applied AI/ML techniques to solve real-world infrastructure challenges	Bangkok, Thailand June 2025 – Aug 2025 3 months
HoneyHunt.AI , Junior Machine Learning Intern (LLM Intern) Enhanced automated resume parsing and intelligent job matching systems utilizing advanced LLM APIs. - Improved algorithm scalability and matching accuracy for production-level deployment - Contributed to product development in AI-powered recruitment technology	Bangkok, Thailand Dec 2024 – Feb 2025 3 months

Research

KMUTT - OPTIMISED 3D-CNN FOR REALTIME INFRARED NATURAL GAS LEAK CLASSIFICATION , Student Researcher Developed a high-accuracy (99.75%) 3D CNN model for methane gas leak detection. Co-Winner of Best Paper Award at IcoICT 2025 (IEEE Xplore). - Applied Running Average, GMM, Moving Average, and Background Subtraction techniques - Implemented smaller image sizes achieving above 99% accuracy for efficient deployment - Currently developing quantization techniques with Asst. Prof. Dr. Sarawan Wongsra for journal publication	Bangkok, Thailand June 2024 – present
---	--

CODIA Lab, KMUTT & Panasonic Singapore, Student Researcher - SAM and Computer Vision Systems Development
Developed SLAM Sparse Bundle Adjustment algorithms in C for edge devices.

- Enhanced algorithm efficiency for edge device deployment

Bangkok, Thailand
Feb 2024 – July 2024

COSIN Lab, INC Department, Student Researcher - Autonomous Vehicle Control Systems
Developed ROS2-based autonomous navigation and control systems for competitive robotics applications.

- Integrated micro-ROS framework with IMU sensor data for enhanced navigation precision
- Contributed to robotics competition preparation and system optimization

Bangkok, Thailand
Nov 2023 – Jan 2024

Volunteer

FIRST GLOBAL CHALLENGE 2019, Mentor
Provided technical guidance and strategic mentorship to Myanmar national robotics team.

- Led team to win prestigious Judges Award at international robotics competition
- Team placed 82 out of 189 countries
- Fostered STEM education and international collaboration in robotics

Dubai, UAE
June 2019 – Oct 2019

Laboratory of Robotics and Artificial Intelligence (L.O.R.A), Robotics Researcher and Founder
Founded and led comprehensive robotics research laboratory focusing on practical applications.

- Spearheaded development of autonomous disinfection robots during COVID-19 pandemic
- Successfully donated first disinfection robots to Wai Bar Gi Hospital
- Managed multiple concurrent research initiatives and mentored junior researchers
- Grew organization to 44 undergraduate student members

Yangon, Myanmar
July 2019 – June 2021

ConceptX International School, Head of Department and Instructor of Robotics and Computer Science
Instructed Computer Science and Robotics to approximately 200 students from Upper Primary 5 to Lower Secondary 2.

- Promoted to Head of Department in October 2021
- Taught IGCSE Computer Science to Secondary 3 students

Yangon, Myanmar
June 2021 – Dec 2021

Awards

Best Paper Award - IcoICT 2025 (IEEE Xplore): Co-winner with Asst. Prof. Dr. Sarawan Wongsu, 13th International Conference on Information and Communication Technology, Bandung

Best Presentation Award - ICA-SP Con 2025: 16th Instrumentation, Control and Automation Senior Project Conference

First Runner-Up - Smart Infrastructure for Smart City Competition: Metropolitan Waterworks Authority, Bangkok

KMUTT Hall of Fame: King Mongkut's University of Technology Thonburi

INC Department Outstanding Student Scholarship: KMUTT - Winter Semester 2024

INC Department Outstanding Student Scholarship: KMUTT - Winter Semester 2023

Judges Award - First Global Challenge 2019: International Robotics Competition, Dubai, UAE

Publications

Optimized 3D-CNN for Real-Time Infrared Natural Gas Leak Classification

Developed a high-accuracy (99.75%) 3D CNN model for methane gas leak detection using infrared imaging. Winner of Best Paper Award. DOI - 10.1109/ICoICT66265.2025.11192973

Natural Gas Methane Leak Detection Using an Infrared Camera

Best Presentation Award winner for research on natural gas leak detection systems using infrared imaging technology.
